

Evans Garment Restoration

The cleaning business expands.

Evans Garment Restoration is dedicated solely to insurance industry needs for restoration of structure, contents, textiles and soft goods, such as shoes, belts, and purses that have been damaged by smoke, soot, water, and mold. On average, the business restores 92% of damaged garments.

William and Rebecca Fish have been in the dry cleaning industry for thirty-three years. WW Fish Enterprises, LLC obtained a SBA PCLP 504 loan for the construction of a new garment restoration facility.

This project resulted in the creation and retention of 30 jobs and an increased tax base to the local community.
