

Broadway Chiropractic Wellness Center done right.

*Dr. Frederic Falentin
& Bonnie L. Lantz*

Broadway Chiropractic offers integrated and expanded health services including traditional chiropractic care, exercise and rehabilitation, massage therapy, nutrition, electro dermal screening (EDS), and infrared sauna.

Broadway Chiropractic was established in 1996 as a home based chiropractic office. After eight and a half years of practice they decided to move their clinic to offer more services and better access.

Falentin and Lantz Properties, LLC obtained a SBA PCLP 504 loan to purchase and renovate a 4,000 square foot building on Broadway Avenue and to purchase furniture, fixtures, and equipment.

This project resulted in the creation and retention of five jobs and an increased tax base to the local community.
